

Cambodian Ministries for Christ, Cambodia Report on Wheelchair For May, 2011

On May 18th, 2011, CMC national office has donated a wheelchair to a young lady Miss. Nheak Reaksa. He is 24 years old and lives with her parents in a small remote village near Vietnam border; her parents are a farmer and a Christian family.

For about 24 years ago, Nheak Reaksa has a high fever for few days, she has to go to the hospital for couple weeks, and the doctor informed her parents that she couldn't recover from the disease. She will not be able to walk again, both of her legs are continuing to wither and cripple. It is hard for her to walk anywhere especially to school, currently she stays at home and moving around even to the bathroom by using her but sometimes knees. No one is helping her because everyone in her family (Parents) is busy at the rice field. When she goes outside her parents or neighbors help to carry her on their back, and sometimes her friend's ox-cart, she is always at home by herself.

Most of the time she is sitting or playing on ground with friends or neighbor's kids because she couldn't go anywhere far, not even go to attend any event with her friends and neighbor outside of her home. Nheak Reaksa and her family very happy for getting this wheelchair, by having this wheelchair we are giving her the ability to go to help her

parents prepare food, sell Khmer noodle in front of her house and move around to see other people like some of her neighbors, she can even sit in the wheelchair in front of her house to play with her friends or go to attend some event including Church service on Sunday in her village. This wheelchair also helps her to move around and easily go to bathroom and clean up house by herself. Instead of waiting for her parents to come back from rice field to carry her to walk to outside her house and having people to come to see her, she is now able to move around on her own.

CMC, Nheak Reaksa and her parents want to thank everyone in Japan who helps sending wheelchairs to help our people in Cambodia. We want to thank especially to the Hope of Wheelchair, you have given our people hope and you put a smile on their face, most important of all you give them the ability to move around. Thank you very much from the bottom of our heart, we pray that you will continue to send more wheelchairs to help our people in Cambodia

May God bless you and your ministry in Japan
18th of May 2011
